Five Year Old is Grandma’s Hero

Lapwai- Five year old Rushawn Seldon, son of Wayne Seldon Jr. and the late Ilene Lawrence, was faced with a situation no child should ever have to encounter. He was with his grandmother Karen Covey-Seldon, driving on Soldiers Canyon from Lapwai to Lewiston and as they reached the top of Soldiers Canyon, they turned the corner when Karen was momentarily caught by surprise; a dog was standing in the road. Karen reactively swerved to miss the dog, but didn’t realize how close she was to the edge of the road, and on the other side, was a 400 foot drop off. The gravel road gave way and Karen’s SUV went down to the bottom, with her beloved grandson in the back seat. The vehicle took out four trees and brush, hitting bumps hard enough to shatter all of the windows, excluding one; RuShawn’s window remained unbroken. When the vehicle came to a stop at the bottom of the hill, in a creek bed, Karen quickly turned to check on her grandson, he was unharmed and still buckled in his seat. The vehicle was covered in brush and Karen’s driver’s side door jammed shut. She climbed out of her vehicle to get to her grandson. Karen checked her cell phone and realized they had no service. They were all alone, and no one knew what had happened to them or where they were. “I said ‘we gotta hike out of here RuShawn’ and it was so steep, there were spots where we were on our hands and knees climbing, holding onto grass and weeds,” Karen said. A couple of times RuShawn told his grandmother he couldn’t do it, and Karen would tell him “yes you can, we have to, nobody is going to come and get us.” Karen went up

Hero On Page 3
Miranda Main serves as a project leader for the Nez Perce Tribe DFRM Watershed. She has been with the Nez Perce Tribe since 2006. Currently serving as a project manager for the Lower South Fork Clearwater River/Slate Creek project area, Main oversees approximately 380,000 acres.

From increasing fish populations to restoring their habitat to research, Main and the Nez Perce Tribe Fisheries Department play important roles by taking a holistic approach to salmon and steelhead recovery. The Watershed Division incorporates many aspects of recovery within a watershed from the ridgetop trickle down to the mainstem rivers. To ensure a healthy ecosystem, Watershed must promote an equal balance between land management and the health of the land. The goal through efforts of the Nez Perce Tribe Fisheries Department is to ensure the quality of fish habitat will increase and sustain the fish population.

Planning, development, and coordination of watershed/aquatic restoration efforts are some of Main’s significant job duties. She coordinates with appropriate and necessary agencies, organizations, and stakeholders and says it is important to work cooperatively with partners to clarify expectations and common goals. “I also collect, manage, analyze, and report on data collected in the field. Managing the project’s budget and seeking additional funding is also one of my basic job duties,” Main said.

Main has overcome several challenges in her first year as a project manager in Watershed. To work around some of her challenges, she has fostered new partnerships with other agency landowners to increase the opportunities and resources available for restoration activities. “We are currently in the process of finalizing a new, formal partnership with the Bureau of Land Management, with whom we have had a positive relationship with but not a formal partnership,” Main said. She is always encouraging clear communication in multi-agency coordination to increase awareness and cooperation among those agencies.

Main would like to thank Mark Johnson, a former employee of the Nez Perce Tribe Fisheries Watershed Division. Johnson was a tremendous help to Main in mentoring and supervision. He demonstrated to Main the process and procedures while trusting in her to take on more than her basic work expectation and including her in agency meetings and discussions. Johnson was always available to answer her questions and trusted Main to do her job. Encouraging Main’s work, Johnson was a relaxed and practical supervisor. “Without his support and encouragement, I would not have had the confidence to take on the additional work load,” Main said.

Main enjoys gardening and spending her free time with her kids and watching their extra-curricular activities. She has been interested in plants and gardening since she was a child and went on to earn her Bachelor’s degree in Horticulture.

Main applies one of her all-time favorite songs, Tim McGraw’s “Humble and Kind,” to her own life. She remains motivated for her children, encouraging them all to have kind, generous, and grateful hearts with a strong work ethic. “They inspire me to be a better person as I try to set a good example for them, striving to do better all the time.” Main said.

the steep slope as far as she could, to where she couldn't make it any further. She told her grandson, "RuShawn you've got to go to the top and get help, I can't make it" the mud and gravel was giving way and Karen physically could not go any further. RuShawn was worried about his grandma falling back down to the bottom, he didn't want to leave her. Karen assured him that she would still be there and she wouldn't fall back down.

RuShawn began climbing and he was able to make it to the road atop the hill, when a farmer was driving by in his truck. RuShawn began waving his arms and screaming at the truck approaching him. The farmer stopped and RuShawn was able to show him his grandmother down the embankment. The man had a rope which was able to reach Karen, and assisted her up the hill. "Had it not have been for RuShawn and that man, I have no idea what would have happened," Karen confirmed.

Ultimately, it took four lengths of cable to remove the SUV from the bottom of the canyon. Today, RuShawn has no traumatic memories of the accident and walked away without a scratch. He is back to being a kid; attending Lapwai Elementary School and enjoying his electronic devices, sports and beading. Karen had minor cuts and bruises on her body but is healing and doing well. "I call him my little hero, because he truly is," Karen continued with tears in her eyes "he's grandma's hero."

Social Services appreciates everyone's donations and is pleased to announce they have reached their goal and maximum capacity of clothing! Therefore, Social Services is no longer accepting donations at this time for the clothing bin. In the future, donations may be accepted upon prearranged appointments. Social Services is accepting clothing and unopened/unused items only. Please do NOT donate beds/bedding, used items (other than clothing), paper products, empty pill bottles, any electronics, or food of any kind. How can you help? Call 208-621-4665 prior to donating, ask if Social Services is accepting donations, arrange an appointment to donate.

Lapwai Students with Perfect Attendance

The Lapwai School District Board of Trustees and Superintendent would like to recognize and celebrate students with perfect attendance in the first semester. A Wildcat thank you to the students and their families for their dedication to regular and punctual attendance. Regular school attendance is one of the greatest predictors of academic growth, high school graduation, and success in college and careers. Both schools ended first semester with a daily average attendance over 90%. We are incredibly proud of you!

‘Alatam’áal | February
The purpose of Impact Aid is to provide formula grants to school districts burdened by the presence of non-taxable federal land and installations to make up for the lost revenues and additional costs associated with the federal presence.

After reviewing the results of the 2018-2019 Impact Aid Questionnaire, three learning needs emerged as the highest priorities to the parents and patrons of the Lapwai School District.

The first learning need expressed through the survey was the Nez Perce language recovery school wide. Nez Perce language is scheduled weekly in grades kindergarten through 7th grade. Introductory and advanced classes are offered at the high school with students earning four college credits. Nez Perce language is also offered daily for grades 1st through 5th in the afterschool program.

The second learning need expressed in the survey was enhanced whole child educational Pre-K-12 programs that develop positive human relations, self-discipline, good citizenship, self-esteem and success. The Lapwai School District is currently implementing Positive Behavioral Interventions and Supports (P.B.I.S.). P.B.I.S. is a best-practice framework for improving academic and behavioral outcomes for all students.

The purpose of this program is to increase academic time-on-task by reducing problem behaviors. The students are explicitly taught how to be respectful, responsible, and safe in all locations on the school grounds. Our goal with PBIS and bully prevention is to create a safe learning environment to maximize learning for all students.

The elementary is also implementing the Promoting Alternative Thinking Strategies curriculum (P.A.T.H.S.), which encourages the development of strong social skills, problem solving, positive character traits, and bullying prevention, all which support academics. These research-based tools for teachers minimize learning interruptions and prevent bullying and other behaviors with strategic procedures and prevention techniques.

Positive character traits and citizenship are also recognized in both schools with rewards, celebrations, and assemblies. Lapwai Elementary also celebrates Unity Month each October with activities focused on kindness, inclusion, and friendship which are reinforced throughout the year.

The third learning need expressed through the survey was more academic challenges and competitions or advanced coursework. More real world experiences in and out of school and advanced use of technology. The elementary after-school program includes a science, technology, engineering, and mathematics focus with engaging activities and family engagement events.

The Higher Education Center allows all seniors access and support with college applications, FAFSA, and scholarship applications. Seniors benefit from math and English-language arts tutoring and college advising. Students have access to instructional support in the classroom and after school hours including ACT preparation. All seniors are eligible for a 5 year renewable scholarship to attend Idaho institutions. All seniors participated in FAFSA, Idaho College Application Week, and toured at least two college campuses.

Nez Perce Tribal Housing Authority 111 Veterans Dr., Lapwai 208-843-2229

File for FREE, Don’t forget to bring:
W2’s & 1099’s, a picture ID, last years tax return, social security cards for each family member, childcare provider’s tax ID #, amounts of additional income, new form 1095 series health insurance statement, voided check or savings account #
BPA, FFA, and Nez Perce Language students are also participating in academic competitions with great success. University of Idaho Upward Bound has an office at the high school including a full time dedicated staff member. Their college preparation services include ACT assistance, dual enrollment opportunities, campus visits, and financial aid assistance.

The Middle-High has a College and Career Readiness Professional Learning Community working on a research-based approach to preparing students for graduation and the requirements and challenges after high school.

Dual credit opportunities through LCSC for high school students currently include: Medical Terminology, Public Speaking, Nez Perce Language, College Writing, Native American History, Math, College and Career Readiness, and Art. Drone use in Environmental Science is also offered to high school students through a partnership with the Nez Perce Tribe and University of Idaho. This includes four college credits during the summer drone program. In addition to two high school classes, 65 middle school students are currently taking Advanced Opportunity Droneology. Droneology is a component to the elementary afterschool program.

A high school newspaper, journalism, and broadcast course is new this year. These students will be also be competing in Business Professionals of America. Physics and Chemistry are also new high school course offerings. All eighth graders are enrolled in health and speech.

Lapwai Middle-High School was awarded a Native Youth Community Project grant which provides a full time College and Career Readiness Teacher, technology, assessment materials, college visits and other advanced opportunities for students in grades 6-12. Lapwai Middle-High School is involved in the Create Idaho and Imagine Academy programs. These projects bring updated technologies into school through a partnership with Adobe and Microsoft. Both of which provide access to the most updated versions of the software, a curriculum specifically made for these projects, and a national certification process.

240 Lapwai Middle-High School students are enrolled in advanced opportunity classes through Edmentum online learning programs. Respondents who listed priorities in the survey not explained above are welcome to contact the superintendent at their convenience for additional information at (208) 843-2622.

It is not too late to provide input. Complete and submit a survey at www.lapwai.org or request a copy at (208) 843-2622. Lapwai School District's Superintendent, Dr. David Aiken, would like to thank the Lapwai School District Board of Trustees, Indian Parent Committee, Nez Perce Tribe Education Department, and district administrators for their input in creating the survey.

Through use of the Nez Perce Tribe Education Standards, aligned to the Idaho Common Core State Standards, the Lapwai School District is working collaboratively to define what "culturally relevant" education means for Lapwai students. This partnership has become a critical component to Lapwai's success.

Lapwai Middle-High School’s success is not too late to provide input. Complete and submit a survey at www.lapwai.org or request a copy at (208) 843-2622. Lapwai School District’s Superintendent, Dr. David Aiken, would like to thank the Lapwai School District Board of Trustees, Indian Parent Committee, Nez Perce Tribe Education Department, and district administrators for their input in creating the survey.
Lapwai Takes Third Place at Idaho State Tournament

The Ladycats returned home on Saturday, February 16, from Boise with the 1AD1 Idaho State Tournament third place trophy. The Ladycats have had a tremendous 2018-19 basketball season, claiming the championship trophy in the Whitepine Leauge District Tournament and earning the first seed trip to State.

Glory Sobotta, Lapwai sophomore guard, said during Districts they did all of the little things right, both offensively and defensively. "Lapwai has won Districts six years in a row now, I'm glad we were able to keep the streak going." Confirmed Sobotta about the Whitepine League.

The Ladycats have experienced a trip to the Capitol for the Idaho State Tournament once again. Although they envisioned themselves signing the championship banner this year, they fell short in their semi-final game, 61-46 to the Genesee Bulldogs.

The Lapwai Ladycats defeated the Prairie Pirates, 64-67 in their final game of the 2018-19 basketball season, to bring home Idaho's third place trophy. "Everywhere we go we are representing Lapwai. Elders always remind us to be respectful of everyone and everything. I really kept that in mind this season." Said Sobotta.

Sobotta would like to thank all of the faithful fans that were dedicated to making every single game. "Many doubted us in the beginning, your support means everything." Sobotta said. She would also like to thank her coach, Eric Spencer, for caring for the team and always wanting them to succeed. A special shout out to all of the parents that helped with fundraisers and dinners, and all of the motivational speakers. Lastly, Sobotta would like to thank all of the people that had continued prayers for the Lapwai Ladycats.

Eric Spencer, all four years of her high school basketball career. She said there were times when things got tough and she just had to push through. Turning to her teammates and remembering her commitment to her team, Sobotta's biggest lesson she learned this season is resiliency.

Reuben's experience at Districts and State were bittersweet. As a senior, she found it difficult as she would inch closer and closer to her final game. Realizing it was the last time she'll ever play in front of her community, wearing 'Lapwai' across her chest, was a bit hard for her to grasp. "Winning Districts with my team was amazing, but losing at State to Genesee was heartbreaking. I'm just glad to end the season with all my girls by my side, I wouldn't pick anyone else to go through this season with." Reuben said.

Reuben would like to thank her parents, her community, and especially her teammates for all of the support they have shown her. "All of them stood behind me and I can't thank them enough for their support." Reuben concluded.

The 2018-19 Lapwai Girl's Basketball Team is losing six seniors, Aurelia Ellenwood, Kalela Reuben, Kelani Smith, Raequel Domebo, Sawaya Greene, and Ta'neasa Shippentower. "I am thankful for the relationship I have gained with each of my teammates on our whole basketball journey." Said senior guard, Kalela Reuben.

Lapwai Crushes Rimrock in First Game at State

The Ladycats defeated Rimrock 78-30 in their first State Tournament match up. KC Lussoro and Julia Gould scored 11 points apiece and the Lapwai girls' basketball team breezed past Rimrock to open the Ladycat's stay at the Idaho Class 1A Division I State Tournament on Thursday, February 14th, at Columbia High. Sawaya Green, with one of her characteristically decisive post moves, gave Lapwai their first lead within six minutes into the first quarter.
me when things were tough. I know they have another chance at winning State and I’m excited to see how next year goes.” Reuben said.

As for #42, Lapwai senior guard, this was an exceptionally special year for her. She is grateful to play for Lapwai, wearing #42. The same number that was so proudly represented by her father for Lapwai, the late Littlefoot Ellenwood, was now to be represented and honored by her only daughter, Aurelia Ellenwood. “I will never forget this new experience being able to play for my dad as well as my Ellenwood name.” Ellenwood said. Ellenwood decided to move from her hometown in Toppenish, Washington her senior year, to graduate from Lapwai High School, where her father had graduated from. Having a great season with accepting new teammates was all she could ask for in a team.

“The love I have for the game is unbreakable. I don’t think I ever want to stop learning how this game works,” concluded Ellenwood who intends to take her basketball talents to the next level, “there are still a lot of options for me and I haven’t decided on one yet. Wherever I go, I know I’m going to work hard.” Ellenwood continued.

Ellenwood would like to thank the whole Lapwai community for the pre-game meals, the motivational speeches, and for showing the Lapwai team what it is to be Nimiipuu. Ellenwood thanks her mother, her ‘Momma Bear’, for allowing her little baby to move to Lapwai her senior year. “I wouldn’t be here if she didn’t agree with my decision to finish at Lapwai.” Ellenwood said. And the biggest thank you to her grandparents, Kub and Susie Ellenwood, for making this year special for her. “They’re always going to be my number one fans cheering me on in anything I do. My family is a huge part of my success and I am truly blessed to have people in my life who only want the best for me.” Ellenwood said with tears in her eyes.

In the beginning of the 2018-19 Girl’s Basketball season, no one had Lapwai in favor during the media polls to make it far. When Lapwai realized they had zero votes, that fueled them to take care of business.

As the girl’s basketball season has come to an end, the Lapwai Ladycats wrap it up being the Whitepine League and District Champions and earning the third place Idaho State trophy. Stamping an exclamation mark to conclude all of their victories and accomplishments, it is safe to say the Ladycats have made the Lapwai community very proud.

Lapwai Ladycats 2018-19 District Champions

The Ladycats defeated the Prairie Pirates 69-52 in the Whitepine League Championship, February 8th, 2019. Lapwai cruised through the District Tournament earning a first seed trip to the Idaho State Tournament in Boise.
Since 2016, the Nez Perce Youth Mentoring Program (program) has been dedicated to increasing the graduation rate of Native American male students, ages 12-18, and improving their college and career readiness.

For the 2018-19 school year 56 boys, grades 7-12, enrolled in the program. Students extend from Clearwater Valley, Kamiah, Lapwai, and Orofino schools. In addition, Native American males enrolled in the Nez Perce Tribe’s Adult Education GED classes, 18 years old or younger, are also eligible for the Program.

The program benefits from tremendous support from school administrators, counsellors, and teachers. Weekly school-based sessions start in October, and finish in April. Trained adult mentors meet with groups of students, one hour per week, at their school to implement the culturally-responsive “TEAM-WORKS” curriculum.

The Program partners with the Mack Strong TEAM-WORKS Foundation and adheres to their Strong Mind, Strong Body, and Strong Character values. Washington State University (WSU) is another key partner.

Dr. Zöe High Eagle Strong, new WSU Tribal Liaison, has worked extensively with tribal stakeholders including elders, native men, Cultural, and Education department staff to modify the curriculum to meet the specific needs of the tribal student population on the Nez Perce reservation. The Program has a special focus on traditional values related to teamwork, courage, respect, responsibility, self-discipline, resilience, and generosity. Nez Perce tribal stories and language are used extensively throughout each mentoring session.

The Program’s Career Coach and mentors are encouraged to share their life experiences, as it pertains to the topic of the week. They also work with each individual student to complete a Career Pathways Plan.

In their Career Pathways Plan, students plan their current education, extracurricular, and career exploration activities along with future educational and career attainment goals. The students have a 30-day goal, a 90-day goal and a six month goal related to the foundational elements of “TEAM-WORKS”.

Participants in the Program are provided opportunities to visit college campuses and workforce sites. Over the past two years, students were able to travel to the University of Washington, Eastern Washington University, WSU, and the University of Oregon. They were also able to tour Lewiston-Nez Perce County Airport, Schweitzer Engineering Laboratories, and Royal Embroidery. During each of these visits, students were also able to visit other entities such as CenturyLink Field, Eighth Generation, Moda Center, and the Columbia River Intertribal Fish Commission.

The summer Program focuses on career exploration activities such as job shadowing, Career Pathways training, workforce site visits, and service learning. Through these opportunities, the students get to earn an hourly wage and build their resume.

In the summer of 2018, students attended a “TEAM-WORKS” overnight camp at WSU, that focused on building leadership through culture and sports.

For more information about the Nez Perce Youth Mentoring Program, please contact Joyce McFarland, Education Manager, at 208-621-4610 or joycem@nezperce.org

Congratulations

“Girl of the Year”
Way to go Din Din,
keep up the good work!
We love you!
Sophie Penney of Kamiah, won the 8-9-year-old girl’s division, making 15 of 25 baskets from the free-throw line. A three-way tiebreaking shootoff took place with Penney coming out on top, beating her components with 4 of 5 shots during the Idaho state Elks Club Hoop Shoot on Saturday, February 2, 2019 in Nampa, ID. Penney will advance to the Northwest Regional Shoot, scheduled for March 16, 2019 in Vancouver, WA. Penney is the daughter of Santee and Bobbie Penney, of Kamiah and the granddaughter of Dave and Marie Penney, of Lapwai, and Lester Decker of Northern Nevada and the late Josephine (Fred) Galloway, of South Eastern Idaho.
It has been famously said, “To err is human, to forgive, divine” Alexander Pope, 1711. Dogs bark, cows moo, cats meow, birds fly, fish swim, and people err. “To err is human...” It is in our nature.

Commonly, people are more aware of the wrong that has been done to them, and less aware of the wrong they have done themselves. This is seldom intentional, we don’t mean to be this way. It is apart of our essence that is distinctly “human.” We are naturally more interested in the well being of ourselves than the well being of others. “...To forgive, divine.” This is the better part of human nature. Forgive generosity is the commodity that makes friendship possible.

If you dance lively and closely with another person it is inevitable that you will get your toes stepped on, which hurts. But dancing is great fun anyway. For the good times to continue, you must forgive your toes being stepped on, if you can’t, the dance will end.

People part ways saying, “We can still be friends” but it won’t be the friendship it was when they were both hearing the same music. Good friends forgive, no matter the offense. It renews the spirit and restores hope that the world can be a better place. That’s why forgiveness is divine. I seem to err a lot, much more than I realize. I don’t mean to, I don’t want to, yet I do. Because I err often, I try to be very generous with my forgiveness toward others. I’m hopeful that because I forgive, the forgiveness will be returned when I need it. Life works this way.

Generally, what you give to others is what you get back and almost magically, you get back more than you give. Forgive easily and you will be forgiven by others easily. The same rule applies when we are scornful to others, in return we will be scorned. Nobody wants to dance with someone that won’t forgive them stepping on their toes, which (metaphorically) will certainly happen. To forgive is not saying that wrong behavior is right. You are forgiving the person, not the wrong behavior. If the person needs to be punished for what they did, life itself will administer it, don’t wish it upon them. Forgive them and release them from what you feel they owe you and while you’re at it, ask the Lord to release them too, I believe he will.

It seems some people are trying to dance wearing steel-toed boots, which is neither stylish nor practical, but it is understandable. Wounded toes need to be protected from further stomping, we do that with our hearts too. We tend to build up walls and stop caring about others as much as we used to. We want to care, but find it harder and harder each time we don’t forgive. We withdraw, and at the same time, try to find ways to get our need for others met. Only if that need does not require us to risk much. This is never healthy, forgiveness is the cure. It is a decision you make within yourself in prayer before the Creator, it is not necessary to tell the other person. If you go to someone and say, “I forgive you,” what you are really doing is making a judgment against them, which can be offensive. They might not think they did anything wrong. Only if the other person brings it up, apologizing for what they did to you, then certainly, tell them you’ve forgiven them. Often, both friends are guilty.

I raised four sons and sometimes their hatefulness to one another would go on for days until I would ask, “Who started all of this?” Usually they could not remember or agree. The same thing happens between friends.

If you miss your friend, the best thing to do is go tell them so. Even if you are sure the first fault was theirs and not yours, turn it around and take their guilt as your own. Some say unforgiveness only hurts the one who holds it and does not hurt the other person. That isn’t always the whole truth, the other person is being harmed because they no longer have access to you. Forgive quickly and freely, forgive everyone for everything. Life is short, live honorably, love fully, and dance madly in comfortable shoes. Pastor Stephen Kingsley Lapwai Methodist Church s307kingsley@yahoo.com

‘Alatam’áal | February
Someone recently wrote to me and said she wished our people knew and remembered who we are and where we come from. She said she understands the struggles, the mental battles, and the pain caused from the genocidal warfare meant to wipe us out. She understands it because she battles it herself. Her words made me realize that I am not alone. It made me wonder how many of my brothers and sisters are feeling the same way.

I grew up in a broken home where I was abused by my father and molested by my older cousins. I watched many family members die or get locked up as a direct result of drugs and alcohol. I was severely bullied and found it hard to trust anyone. I usually felt alone and had no idea how to express myself.

Now as an adult, I find myself serving a ten year prison sentence. Within my prison sentence, my girlfriend has left me, my father turned his back on me, my mother passed away, my sister moved hundreds of miles away from home, and my son was taken by the state and carelessly adopted out. I often wonder to myself why I was treated this way, why my life was like this? What did I do as a child to deserve the hard road ahead of me? At times I thought I would be better off dead, but I am still here, broken, but not beat!

I may not have the answers at this time, but I know I am not alone. I know you are not alone, and I know WE are not alone, because I am here with you. I promise that there is a light at the end of the tunnel, and if you will just take a moment to look for it, the Creator will guide you.

With faith and a lot of prayers, I have overcome the fear and anxiety that has held me back for so many years. Recently, I reconnected with my son, I now feel closer to my sister, I found peace in the memory of my mother, I have forgiven my father, I have made new friends, and I found the strength in my story, not to mention I get out of prison in less than one year.

I hope to start over new and make a better life for myself and for those around me. Nonetheless, we are Native, and Natives are the strongest people in the world. I encourage you to look into your ancestry and try to understand where you come from, learn the history and who you are, learn who you are meant to be. Our ancestors endured and fought with their lives for us to be here today. How beautiful is that? What more could someone do to show how much they love you and how much your life matters.

Remember Who You Are & Where You Come From

Writer: Anonymous
Georgia Barros, 63, a member of the Nez Perce Tribe and the High Eagle family, passed away Thursday, Jan. 31, 2019, at St. Joseph Regional Medical Center, surrounded by her family and covered in love and prayer.

She was the second-youngest child of Daniel and Louise High Eagle, born 15 minutes before her twin sister, Georgine, on Feb. 21, 1955, in Lewiston. She was part of a large family that included her older brothers and sisters, Larry, Ronald, and Elaine McFarland; Carol Raboin; and Patricia, James, Sandra, Anthony, and Gordon High Eagle.

Her siblings were always there to help care for the “Twin,” which they did faithfully (on Earth or in heaven) through her final days. Georgia talked about how strongly she felt the presence of her parents and twin sister during her illness.

She grew up in the family home on Lapwai’s Main Street that was known to be a happy and loving place. Dan and Louise showed their children how to find purpose in life through their family, faith, culture and community involvement. The families of their neighborhood looked out for each other’s children, who would have many adventures together and form lifelong friendships.

She attended school in Lapwai, where she was active in basketball, softball, Indian Club and Upward Bound. She often was a traditional dancer at pow-wows and cultural programs at Spalding Park. Georgia was queen of the E-peh-tes pow-wow in 1972. One of the highlights of her school years was traveling to France with Reva Luvavas’ Spanish class.

Georgia graduated from Lapwai High School in 1973. She was a bright and motivated student, so continued her education at the University of Idaho and Lewis-Clark State College. As an adult, she enjoyed bowling, a wide range of cultural activities and time spent with family and friends.

She spent many years helping to raise her beloved nieces and nephews. They appreciated her as a second mom who often showered them with love, gifts or trips to the drive-in movie. Georgia had an especially close relationship with her nephews, Mike and Larry Jr. (Yogi) McFarland. Since they were only one to two years younger than her, Georgia said they were more like her brothers.

The best day of her life was April 2, 1981. Her life became complete when her son, Daniel Joseph, was born on this day. She was a devoted mother who worked hard to give Daniel a wonderful life. Her son is thankful for the way she raised him and for her unconditional love and support.

Georgia expanded her love for Daniel when she became the proud grandmother of his son, Michael Bear. Grandma Georgia would want Michael to always remember how special he is and how much she loves him.

On Jan. 11, 1994, she married Mike Barros. They made their home in Lapwai. The couple shared many good years and memories together. They would later separate. Some of her earlier jobs included the Tribal Work Experience Program (TWEP) and Toppenish School’s JOM Program. She worked for 30 years for the Nez Perce Tribe, starting as a parent coordinator for the Head Start Program for a short time. Eventually, she settled into the career she loved with the USDA Food and Nutrition Program. Georgia started as an office/warehouse worker for 10 years before becoming the director for 20 years until 2014. She was active in regional and national USDA Food and Nutrition committees that advocated for Native Americans.

Georgia is survived by her son, Daniel High Eagle, of Lapwai; grandson Michael Bear, of Lapwai; granddaughter Mayalu Spencer, of Lapwai; her sisters, Carol Wheeler, Sandra High Eagle, Rosa Yearout and Evelyn High Eagle, all of Lapwai; brothers Gordon High Eagle Sr. and Kevin Ellenwood Sr., all of Lapwai; numerous aunts, uncles and cousins; and dozens of nieces and nephews and their children and grandchildren.

She was preceded in death by her parents; her paternal grandparents, Antoine and Josephine (Luke) High Eagle; her maternal grandparents, Linus and Emma (Pinkham) Matthews; brothers Francis John McFarland, Larry McFarland Sr., Ronald McFarland, Anthony High Eagle Sr. and James High Eagle; sister Georgine (High Eagle) Fiander, Patricia High Eagle and Elaine (McFarland) Ashlock.

Public viewing will start at 11 a.m. Tuesday at Sacred Heart Catholic Church in Lapwai. The holy rosary will be recited at noon, followed by a funeral Mass at 1 p.m., celebrated by the Rev. Brad Neely of All Saints Catholic Church in Lewiston. Burial will be at Jonah Cemetery near Sweetwater. Vassar-Rawls Funeral Home of Lewiston is in charge of arrangements.
CRITFC Job Title: Lamprey Collection Technician

Department: Fishery Management; Temporary, Full-Time, Non-exempt (4-6-month duration); Salary/Wage: equivalent to CRITFC GS 5; location: Portland, OR; Recruitment period: February 8, 2019 – April 19, 2019.

ANNOUNCEMENTS

Institute for Tribal Environmental Professionals
2019 Student Summer Internship

Apply now for an 8-week summer internship.

Spend your summer working with tribal organizations to address tribal environmental issues. The internships have a technical, educational or policy focus. We are offering 9 positions in air quality. The internship program provides each student intern with a stipend, and limited housing and travel allowances. Host sites are selected from tribal environmental organizations, government offices, the US Environmental Protection Agency (USEPA) and others. Descriptions of the host sites can be found on the website at nau.edu/itepinterns after January 28, 2019.

Eligible students must meet the following:

- US Citizen
- Full-time undergraduate or graduate college student during Spring 2019 (12 hours undergrad, 9 hours grad) at any tribal college, college or university
- Have at least a 2.5 cumulative GPA
- Majors in an environmental or related field like science, engineering, planning, policy, law, management, political science, anthropology, or health
- Interested in pursuing an environmental career after graduating
- Proficient verbal and written communication skills
- Strong interest in working with Native American tribes or topics

Please visit nau.edu/itepinterns for more information.

To apply, submit an online application plus additional materials that are described on the website. You can also provide your preferences for the host sites you find interesting.

Deadline: February 25, 2019

Nez Perce Tribe Recycling Program Newsletter: Feb. 2019

Gray Water Recycling: 2018

Recycling numbers are going up at the Nez Perce Tribe. From 2016 to 2018, we’ve had a 170% increase in collected recyclable materials — from 20 tons to 54! In 2017, recycling was 34% of our waste stream. We diverted 16 tons of materials through recycling and hauled 136 tons of waste to the landfill. In 2018, we diverted 54 tons of materials through recycling and hauled 136 tons of waste to the landfill.

This growth is really exciting, because in 2016 we conducted three major clean-up operations at the reservation, resulting in an additional 19 tons of trash. This year, we recycled and saved almost 25 tons of trash! For 2018, this equalled 25% of our waste stream.

Reducing our reliance on the landfill and recycling more items is good for the environment as well as our budget! With each ton of trash, we save $84 in landfill fees.

Betcha can’t guess... If we had a different color of plastic bottles from the existing clear ones, how many more tons of plastics would we be able to recycle? How about 6 or 8? But we’re out of clear plastic! With reduced plastic recycling, many people are wondering how to reduce their plastic waste stream. Luckily there are some simple solutions! It can be as simple as bringing reusable bags to the store with you or a reusable mug to the coffee shop. You can reduce other types of waste and lessen your overall impact on the environment by buying used or recycled items instead of new, and thinking twice about throwing away things that are still functional or can be repaired.

Stay tuned next month for more information about upcoming community recycling opportunities!
