2. PURPOSE OF RFP

The Nez Perce Tribe Department of Fisheries Resources Management - Watershed Division (NPT) is soliciting proposals from selected qualified contractors ("Offerors") to provide contract services ("Services") for the Lapwai Creek Reach 14 Project Design on Lapwai Creek. Services expected include design, specifications, and bid documents for the construction of a floodplain restoration project to stabilize the portion of Lapwai Creek within the project area while increasing the instream complexity to provide juvenile fish rearing habitat, increase floodplain connectivity, potential recruitment of spawning appropriate gravels, and restoring native plant communities to enhance ESA listed fish species. This project would produce implementation-ready, engineer-approved, regulatory-agency reviewed plans and specifications for the Lapwai Creek Reach 14 Project Design, as well as prepare a HIP (Habitat Improvement Program) Basis of Design Report (BDR) for Bonneville Power Administration (BPA). All instream structures must be stable at the 100-year flow event.

The Offeror, if any, who is selected through the Qualification Based Selection process (the “Contractor”) shall sign a contract with the NPT in the form set forth as Exhibit 1 to this RFP (the “Contract”).

3. BACKGROUND

The Lapwai Creek Reach 14 Project site is located on the Nez Perce Indian Reservation in Nez Perce County, Idaho, upstream from Culdesac, Idaho along U.S. Highway 95 (US 95). Lapwai Creek, a tributary to the Clearwater River, is the stream of interest for this project. The Project Site is located on Lapwai Creek, downstream of an existing highway pullout at US 95 Milepost 285.1. The goal of this project is to restore salmonid habitat and stream processes in upper Lapwai Creek as it flows through Culdesac Canyon.

A floodplain restoration project was previously implemented at Reach 14 on Lapwai Creek in October and November of 2018. During the spring high water events of 2019 and 2020 the project area experienced extensive head cutting and incision along roughly a 400 foot section of newly constructed stream channel, lateral migration of the stream channel and side channel formation (also experiencing head cutting and incision). This section of Lapwai Creek experiences very high flow and energy levels during the spring high water flow events. New data collection and hydraulic analysis are necessary to address the current site conditions and restore natural stream process at Reach 14 in Lapwai Creek. The contractor will be expected to review the design plans and implementation of the 2018 Floodplain Restoration Project and take them into consideration when formulating design, specifications, and bid documents for the construction of a floodplain restoration project. The contractor will be expected to update the reach hydrology for the recent high flow events in 2019 and 2020.

- 10.5 If NPT and the highest ranked Offeror are unable for any reason to negotiate a contract at a compensation level that is reasonable and fair to NPT, NPT shall, either orally or in writing, formally terminate negotiations with the highest ranked Offeror. NPT may then negotiate with the next most qualified Offeror. The negotiation process may continue in this manner through successive Offerors until an agreement is reached or NPT terminates the contractor contracting process.
- 10.6 Proposal selection will be completed through a quality-based selection process (QBS) by a review team. Factors listed in descending order of importance. The following selection criteria will be used to evaluate the content of the written proposals based on a weighted scoring method:

11. SELECTION BY NPT

11.1 The Contract will be awarded to the Offeror who, in NPT's judgment, has submitted a proposal that best meets NPT's requirements and successfully completes scoping and fee negotiations with NPT.

11.2 If there are disagreements with the outcome or questions about the selection process, Offerors must submit protests in writing to NPT within seven (7) calendar days after the selection has been made. At the request of the protester a hearing will be conducted before NPT within seven (7) calendar days after submission of the written protest. NPT will either uphold or deny the protest, and a written response will be issued for all properly submitted protests. If the protest is denied, NPT will proceed to award the Contract.

11.3 Final award will be subject to execution of the Contract. Negotiation of the Contract will include the scope of services and fees for services. NPT reserves

the right to negotiate a final Contract that is in the best interest of NPT. If permitted by NPT, in its sole discretion, negotiation of the Contract may include one or more of the proposed alternate terms and conditions, if any, in the selected Contractor's proposal. Award of the Contract may be withdrawn if the Contract negotiations are not timely concluded, as determined by NPT in its sole discretion.
