"...focuses on individual plan of employment..."
To assist American Indians with disabilities in obtaining and retaining employment and maximizing their ability to live independently in their communities, our primary objective focuses on an individual plan of employment. We are committed to the Tribe and both public and private organizations.

Who is eligible?
To determine eligibility, the NPTVRS has applied criteria to determine if our services are applicable to an individual with a disability and if their sporadic employment is due in part to their disability. In order to apply for services, the applicant must:

- Be a member of a Federally recognized Tribe
- Reside on or near the Nez Perce Reservation
- Have a documented physical/mental disability causing substantial impediments to employment
- Have reasonable employment expectations that are achievable

Qualifying Disability
To apply, you need a current documented disability severe enough to prevent you from attaining and maintaining employment specifically due to your disability. Your provider may assist our counselor in determining if your barriers are caused by your disability.

Student Transition Services
NPTVRS also assists students with a disability ages 16-18 who are in high school or getting a GED to transition into the workforce.

Services Provided
Upon determining the applicant's eligibility for services, an Individual Plan of Employment (IPE) is developed and agreed to. A counselor can assist with resume building, pre and post-employment services, counseling, vocational training, and placement services to improve employment opportunities to ensure there is a quality of living and financial independence in our tribal communities. Re-occurring services are limited and must be specific to existing Individual Plan of Employment (IPE).

We do not pay for debt or services needed prior to approval. We can refer you to the appropriate public and/or private agencies to apply for their services.

A participant may be requested and required to explore other funding opportunities from like services to ensure the participant utilized other services related to their disability or need.

NPTVRS assists participants in setting realistic and reasonable employment goals that are achievable, produce longevity and build independence. Once we determine your employment goals, we will focus on steps to find successful and sustainable employment. We understand the need to secure employment, however we also want to ensure you are satisfied with your employment.

We strive to meet the needs of our participants and hope to assist our participants in successful employment and self-reliance. We want to see individuals continue their employment goals and meet them with great success.

Request resolution of disagreements through either an Administrative review or fair hearing. Client Assistance Program (CAP)

We are not a Social Services agency. Our program focus is to aid those who have barriers to employment due to a disability.
