**THE ASSEMBLY AND INSTALLATION OF A TWO TANK PARTIAL REUSE AQUACULTURE SYSTEM
(PRAS) AT NORTH LAPWAI VALLEY ACCLIMATION FACILITY**

LOCATION: North Lapwai Valley Acclimation Facility
24025 Thunder Hill Road, Lapwai ID 83540

This project is the assembly and installation of a two-tank Partial Reuse Aquaculture System (PRAS) provided by the Nez Perce Tribe to the specifications shown on provided construction diagrams. System will be connected to existing plumbing and electrical at the site. This project requires expertise in excavation and dirt work, concrete forming and pouring, industrial plumbing and electrical, tank panel seam glassing and coating, and general construction.

A summary of tasks includes:

1. Site excavation, compaction, and preparation to expose required utilities, ensure proper elevations, and support system installation and operation.
2. Framing and pouring a concrete re-use sump chamber and Gas Management Tower pad.
3. Assembly, seam glassing, and coating of two 30' circular tanks.
4. Placing and connection (plumbing and electrical) of all PRAS system components.
5. Plumbing and electrical connections between the PRAS system and existing infrastructure.
6. Site restoration after PRAS system is installed and operational.
7. Compliance with Nez Perce Tribe TERO and Cultural Resources requirements.

Interested bidders can email Steve Rodgers at srodgers@nezperce.org to receive the full *Request for Proposal* document, which outlines project requirements and deadlines in greater detail. Steve can be contacted by email or phone at (208) 621-3555 for more information.

Written bids are due by 4:30 p.m., May 3, 2024.
